The Palmdale Sheriff's Station
Community Advisory Committee

The Palmdale Sheriff's Station Community Advisory Committee (CAC) was established to promote a better understanding between the public and the Sheriff's Department. It was created to be a bridge toward building trust and promoting dialogue between local law enforcement and the community. The CAC functions to bring concerns and issues from the community to the Department and to address those concerns, establishing a partnership with the local community in the process. Additionally, the Sheriff's Department benefits from this two-way dialogue by gaining a greater understanding of the issues and concerns in the communities they serve.

The CAC is composed of community members who volunteer their time to act as representatives of the community. Committee members are not employed by the Sheriff's Department and do not receive any compensation for their time. As per the terms of the Antelope Valley Settlement Agreement, the CAC produces regular reports. This is the second annual report produced by the CAC and covers their work for 2017-2018 (October 2017-June 2018).

Strategies to improve Community Relations

There have been times when community members have come to a Community Advisory Committee member with an issue or grievance. In an effort to ensure the matter has been properly handled, the CAC has developed a form to track these issues.

The initial form has been modified to capture local community policing concerns in addition to police conduct.

Community Complaints Forms Filed
Four Complaints were processed by the Palmdale CAC from the Community

Community Outreach Meetings

Concerns and Follow-Up from Quarterly Public Meetings:
At many of the meetings there is still a common concern from community members regarding traffic stops. These concerns range from how traffic violations are enforced to under what circumstances a high risk extractions are performed.

- Palmdale Station deputies have been handing out the traffic stop flyer which was produced in collaboration with the monitoring team, the Department, and CAC. This flyer is also taken and distributed at the numerous community engagement events attended by station personnel.
- Questions about traffic stops raised at town hall meetings are addressed by CAC members, Captain Kneer, or deputies who explain department policy and case law to members of the public. The issues raised are typically addressed by educating members of the public and explaining police procedures. Members of the public are very receptive of the answers provided and no further follow-up is needed.

Use of force questions and concerns are a common theme at the meetings. These concerns are typically sparked by an incident seen in the news and rarely involves the Sheriff's Department.

- Deputies address the concerns by educating the public on case law regarding the use of "reasonable force" as well as the assessment of force with the advantage of "hindsight." We do not attempt to justify all incidents seen in the news however we explain our policy as it applies to those incidents
