Don't Let DDoS Stop the Elections

1,100% Increase in Bot Traffic

During UK, France, Germany, and European Parliament Elections

Research from StormWall

50.4% of Q2 Malicious Traffic Targeted EU

(with Spikes in Election Periods)

Election Systems Are Vulnerable

Public-Facing Services

Internet-Reliant Office Systems

Be Prepared

- Coordinate with Service Providers
- Develop Internal Communications Plans
- Establish Procedures for Quick DDoS Incident Identification
- Train for DDoS Attacks

Proactive DDoS Vulnerability Management Supports Safe Elections
