The TP Group

With a proud history of growth and diversification, The TP Group has continuously evolved to meet the dynamic needs of the construction industry. The TP Group is a multi-skilled organisation, with specialised divisions designed to deliver unparalleled expertise across various sectors.

Whether you're in need of Painting Solutions, Passive Fire Protection, Surfacing & Coatings, Liquid Roofing, Landscaping, or a holistic suite of services, the TP Group's team of dedicated professionals are prepared to collaborate closely with you. Our mission is to ensure your projects exceed expectations, with a commitment to quality and satisfaction that sets us apart.

The TP Group's Contracting Division brings together our diverse services, and is lead by a Managing Director with over 25 years of nurturing trusted relationships. We are the first choice partner for turning your ideas into reality with the experience, dedication and quality we're known for.

1986 Total Protection GB formed. The Special Projects division was part of this.

2005 Total Protection GB incorporated.

2011 Painting (Essex division) incorporated.

2012 Landscaping incorporated.

2013 Fire and Sealing Solutions incorporated.

2017 Painting (East Anglia division) incorporated.

2017 Moved to Baddow Park.

2021 Rebranded as Total Protection Group (The TP Group).

Redhill Office opened.

2022 Contracting Services incorporated.

About The TP Group

Our clients know we're not salespeople. We are experienced workers who have all started in junior positions and worked our way up, from the labourers to the Managing Director. We know the length of time things take, the problems we need to overcome, what's achievable and what's not. **And we'll always be honest with you.**

The TPG ethos combines a common-sense approach with a 'can-do' attitude. We fully understand our clients' needs and service them in a way that fills them with confidence, often inspiring them to request other services from us.

We will always go the extra mile and, most importantly, get the job done to your complete satisfaction – no exceptions.

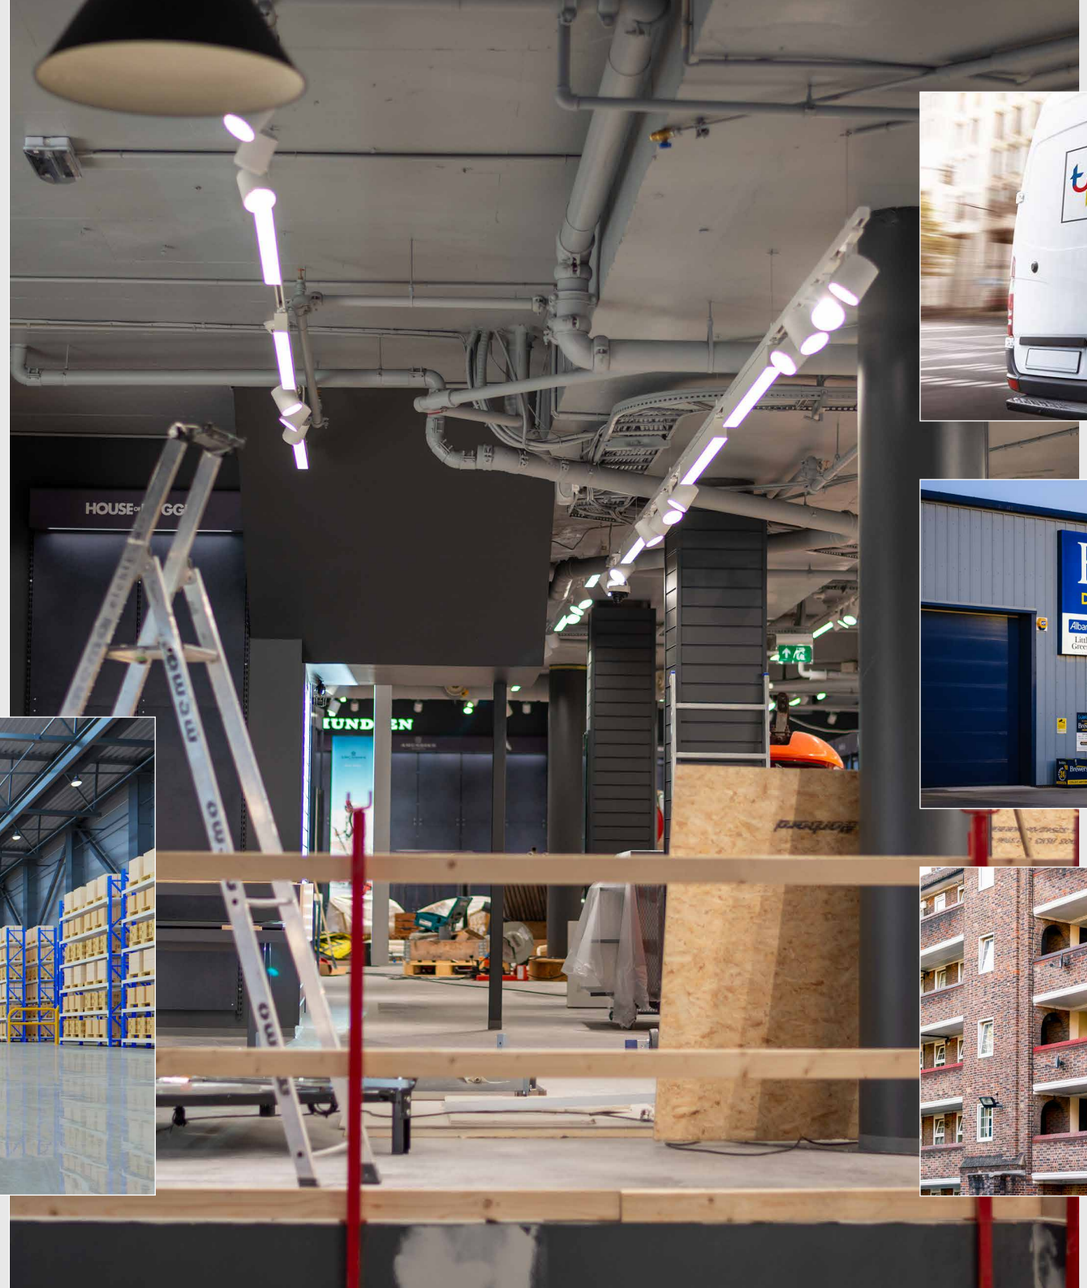

This is our promise to you
Service Without Compromise

Contracting Services

Our Contracting Division brings everything together, made possible by Managing Director Keith's quarter-century of forging strong, trustworthy connections across the industry. This is the network that unites painting, fire protection, surfacing, roofing, and landscaping into a single, powerful force.

We will bring your project to life, making sure every piece fits together perfectly, all with our unmatched standards of quality and efficiency.

The TP Group's Contracting Services brings together the best in the business, united by a single goal: to deliver your projects with an efficiency, cost-effectiveness and quality that's unmatched. Let us take the complexity out of construction, making it an experience that's as rewarding as the final outcome.

Why Choose Us?

- **The Cost-Effective Solution:**
  Our in-house expertise across our diverse range of services streamlines our operations, while allowing us to pass on the savings directly to you.
- **Guaranteed Quality:**
  We don't just aim for industry standards; we go beyond, ensuring your project is in the safest possible hands.
- **Experience, Experience, Experience:**
  Team-leader Keith's 25 years of experience not only means we know what works, we also know the best people to get it done. With us, it's the skills and connections that count.
- **All the Skills Under One Hat:**
  Think of us as a Swiss Army knife for your project. Whatever you need, we have a solution for that. We bring you the very best from every corner of the construction world.
- **Right There With You:**
  Imagine us as part of your team from start to finish—time for a coffee while we talk through the next steps? Absolutely. We're all about making things click, from day one to the finish, and beyond.
- **Crafted Just for You:**
  No off-the-shelf solutions here. We're talking tailor-made, bespoke, perfection. We'll bring your vision to life, down to the last detail.

Painting Solutions

Specialises in servicing many different sectors of the construction industry, and we are proud to be one of the leading independent contractors in the country.

Our team of experts are fully conversant with all aspects of the trade ranging from Commercial; Residential; Industrial; Refurbishments; Class O; Lead paint removal and anti-graffiti coatings. In addition, we carry out feasibility surveys; reports and offer a full measuring service.

We pride ourselves upon outstanding customer service, and our quality assurance system allows us to work closely with our clients ensuring a smooth completion of projects to the quality required. This approach allows us to have strong working relationships with our clients which has enabled us to create stable partnerships with some of the country's leading companies.

In addition to our experienced management team, we have a resource of over 150 quality decorators with a range of specialist skills enabling us to produce the quality we know our clients require. All our operatives are fully CSCS approved along with all our Managers being either SSSTS or SMSTS qualified.

Our Essex, Redhill and Norwich offices manage teams who can operate in East Anglia, London, Home and Southern counties but we can sometimes venture further afield for clients or more specialist works.

Services

- Internal and External Decoration
- Wallpapering
- Commercial and Residential Decorating; Industrial Coatings
- Lead Paint Testing
- Lead Paint Preparation and Removal
- Class O Paint Projects
- Site Surveys Feasibility Studies and Specification Advice

Painting Solutions seamlessly blends with our Contracting Services to reduce costs of multi-disciplinary projects by leveraging our extensive expertise across multiple in-house skillsets. Every project can benefit from our excellent service and unparalleled craftsmanship.

Surfacing and Coatings

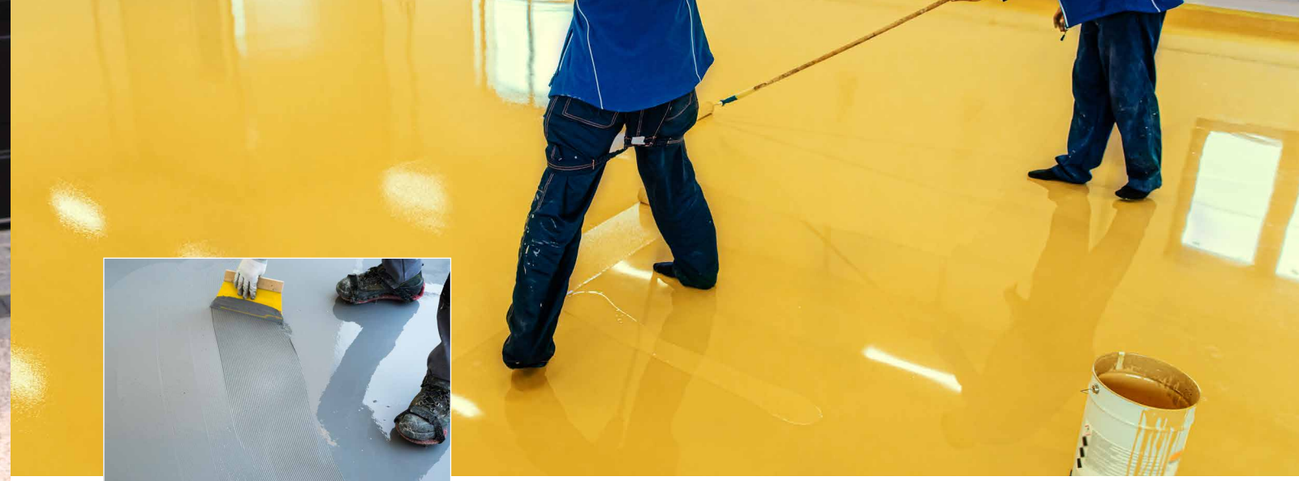

As leading surfacing experts in the UK we have the expertise to deliver hard-wearing and attractive solutions to suit your project, backed with our service-driven approach. We are renowned for our application of resin bound surfacing and specialist floor coatings such as MMA and epoxy resins. With the merging of the landscaping, resin bound and specialist surfacing divisions we can offer a broad range of services from groundworks to very high level finishes now including Liquid Roofing.

Combine TP Surfacing and Coatings with our other divisions, through Contracting Services, to offer a complete, more cost-effective solution compared to onboarding multiple companies to deliver. Enhance projects with a wide range of specialised finishes, all underpinned by our commitment to excellence.

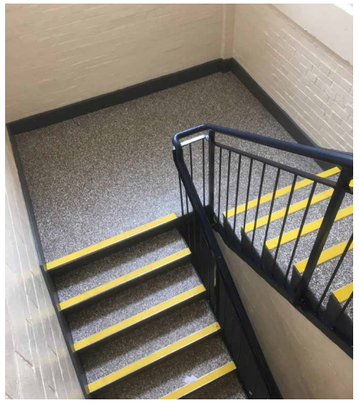

Services

- Resin Bound Gravel
- MMA Fast Curing Resin Flooring Solutions
- Section 12 Approved MMA Fast Curing Resin
- Installation of Stair Nosing & Entrance Matting Systems
- Internal Resin Solutions
- Epoxy & Polyurethane Coatings
- Chemical Resistant Coatings & Solutions
- Macadam / Tarmac / Asphalt Solutions
- Surface Removal & Preparation
- Rubber Crumb/Wet Pour Safety Surfacing
- Tar and Chip
- Resin Bound Tree Pits & Resin Bonded Systems
- Polymeric Sports Courts/MUGA Pitches

Liquid Roofing Specialists

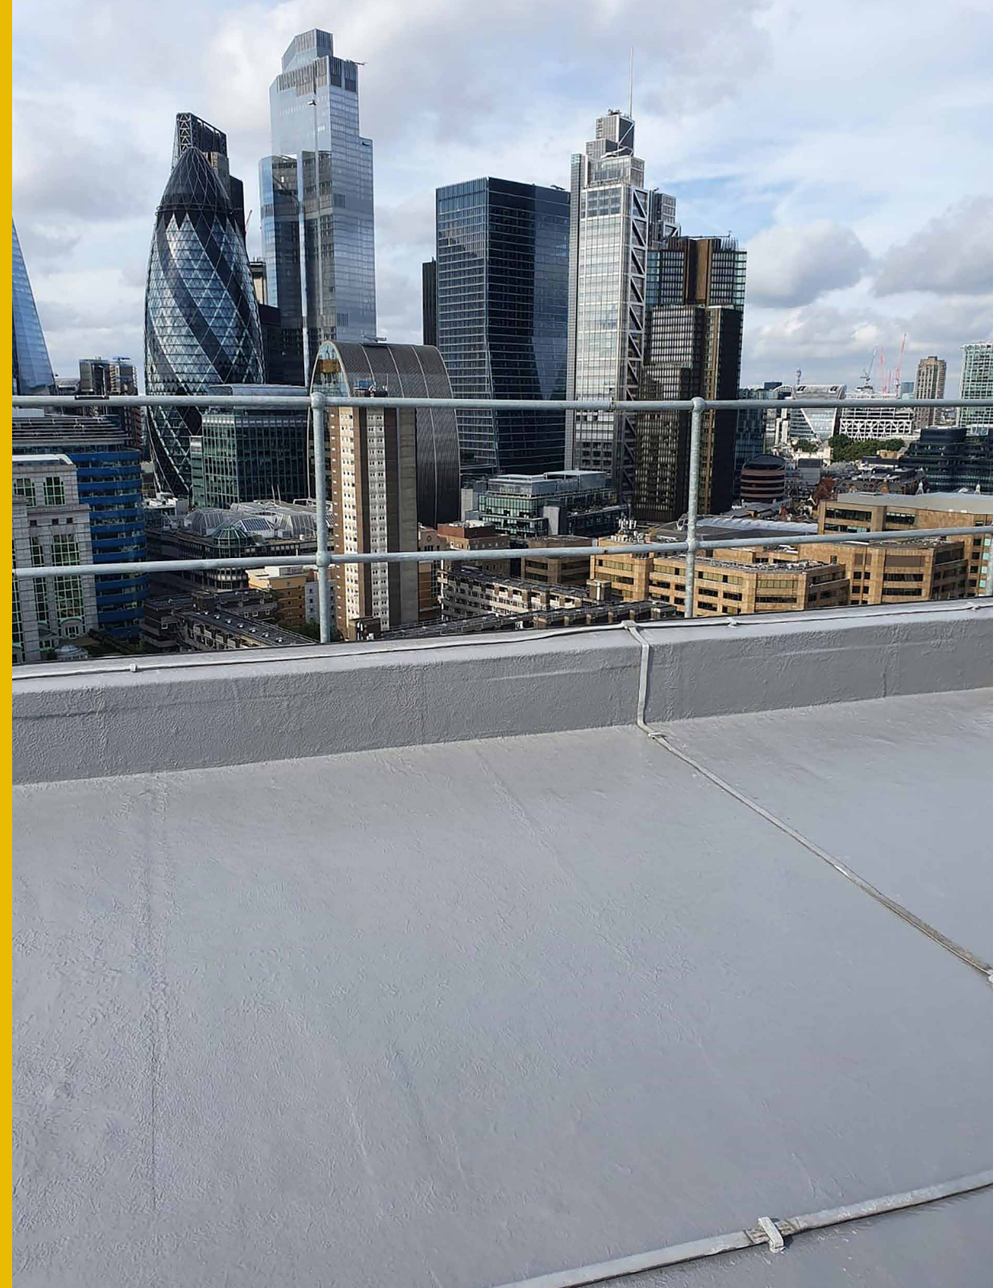

In 2022 The TP Group purchased an established liquid roofing company with over 20 years' experience of delivering refurbishment and new build projects. Originally offering only Liquid Waterproofing, we can now offer additional roofing services according to requirements. We have completed many successful projects for existing and new clients, with great feedback. Due to the recent growth of the company, we have added several new members to our team with many years' experience in the roofing industry.

What we do

Apply high performance weather proofing systems which combine the inherent advantages of liquid coating with the benefits of the latest technology. This offers a level of performance and reliability that are unsurpassed by conventional alternatives.

Waterproofing solutions provide flexible, durable, long-lasting protection for up to 30 years before first full maintenance, depending upon which system is specified. The systems provide a cold liquid applied, breathable, seamless finish, which moves with the roof and allows vapour release from the existing substrate.

Why use liquid waterproofing

Waterproofing Systems have been developed to solve the problems associated with the long-term waterproofing of flat roofs, gutters and pitched roofs. Substrates are suitable for refurbishing many types of traditional roofing, but can also be used for balcony and walkway waterproofing.

Our Contracting Services Division enhances Liquid Roofing offer by combining it with one or more of our other expert teams, for the complete, lower-cost, all-in-one construction solution. Ensure each project benefits from durable, cutting-edge protection for a seamless, high-performance finish that lasts.

Additional benefits

- Fast to install
- Applied around any obstacles
- Joint free
- Easy to maintain
- Hard wearing anti slip solution
- Fire resistant options
- Internal & external use
- Zero solvent odour
- Up to 30 year guarantee
- Upgrades comply with regulation part L

Passive Fire Protection & Doors

We offer a comprehensive range of passive fire protection solutions to ensure your new or existing building meets the very highest of compliance standards. We hold full third party LPCB certification across our fire door, fire stopping and intumescent paint divisions. In addition, we hold FIRAS certification within our fire stopping division and are BRE accredited.

We pride ourselves on having an experienced and trained team who are always on hand to support you with expert advice. From our comprehensive surveys to post installation services, such as ongoing maintenance, we have the solution for you.

We are approved installers of products from the leading passive fire protection manufacturers and have regular specific product training to ensure we provide the correct solution first time, every time.

Our broad portfolio of satisfied clients across a wide variety of building sectors, such as new builds, healthcare, education, commercial, social housing and more, certainly speaks for itself.

TP Passive Fire Protection guarantees extensive solutions, which are third-party certified, cost-effective and fully flexible. Whatever the needs of your project, we will be your reliable partner in achieving compliance within your building.

Through Contracting Services, TP Passive Fire Protection is seamlessly integrated with other services, ensuring comprehensive compliance and safety for all projects, backed by our certified expertise and a dedication to meeting the highest standards. Because we deliver projects using our in-house resource, you can rest assured that you'll benefit from the most competitive price, as well as the top quality you'd expect from TP Group.

Services

- Fire Stopping
- Fire Door Remediations
- Fire Door Installation
- Structural Steel Fire Protection
- Fire Sealing & Boarding
- Surveys & Inspections

Landscaping

We have an excellent record in delivering outstanding hard and soft landscaping work with our renowned ‘can do’ approach. If you’re looking for a team of experts to take care of your commercial projects, then rely on TP Landscaping, from design to maintenance.

The division was originally set up from a need in the industry to provide higher standards of work to clients. Our reputation grew quickly, leading to greater expansion and more high-profile commercial contracts.

We’ll work closely with you from the start to ensure your projects are completed to the highest standards – a focus on quality that has helped us to deliver some of the UK’s leading public-realm schemes of recent years.

Through Contracting Services, we provide a comprehensive managed solution that combines landscaping with other disciplines such as surfacing, painting, or passive fire protection. This integrated service simplifies project management, reduces costs and improves efficiency, because it’s all delivered by one multi-skilled and trusted provider.

Our quality and standards have been recognised by the prestigious BALI Awards.
